VOL. 4 - 28

LACOMBE, TUESDAY, SEPTEMBER 3, 1907

ONE DOLLAR A YEAR

COUN. J. D. SKINNER'S FOLLY The Barnett Avenue Sewer.

As it is the evident intention of the Skinner Council to go ahead with the Barnett Avenue drain a few remarks on the subject will not be out of place. The Globe has always been of the opinion that some method of draining the collars on the avenue should be adopted. The Globe is also of the opinion that those directly benefited should pay the whole

cost of the drainage. The drain proposed to be put down by the council will only be of benefit to those having property on the avenue. It is not intended that it will be a main sewer. Property owners off the avenue should not be asked to pay the cost towards this work as they will never receive any benefit from it. The council proposes to build the drain on the frontage tax plan. Under the frontage tax plan the work can be undertaken without a vote of the ratepayers of the town

at large. All the council requires is a petition from a majority of the property owners along the line of the proposed drain. The council is asking the property owners directly interested to pay fifty per cent of the cost and intend to make the town at large pay the other fifty per cent. We cannot see the justice of levying this expense on parties who will receive no benefit from it. The town is taxed beyond the limit without this extra touch.

Another thing in connection with this drain should be looked into at once. The council proposes to have the drain empty into the ditch on the government road allowance east of the town. How long will it be before the road council will object to the water from the streets being drained on to their roads. The proper thing for the council to do is to extend the proposed drain across the railway track to the government drain. Of course this will cost twice the amount of money estimated by the council for the work, but this fact should make no difference to the Reform League Council.

have nothing to say. But if they think as we do that the expense of the Barnett Avenue drain should be borne by the property owners on the avenue alone, they had better get busy at once, and see what can be done to stop the work. Surely the taxes are high enough already this year to suit the most fastidious.

Successor to J. G. FRATT

BARNETT AVE., LACOMBE

LOCAL NEWS

Ratepayers should compel the council to take a vote of the town at large on the advisability of going to the expense of putting in the drain on Barnett Ave. Get busy now.

Capt. Insip left for England on Sunday night.

For preserving fruit of all kinds go to F. P. Switzer's. Fresh fruit arrives daily.

The ladies of the English church purpose holding a bazaar the 29th of this month.

The rate of assessment this year at Edmonton is thirteen mills on the dollar.

Ernest Schooning, of Pincher Creek, was killed while duck shooting on Friday last.

Boys—If you want a good shot gun or rifle, come to the auction sale at G. M. Dempsey's Saturday, Sept. 14, 1907.

The commissioners granted a license to the Adelphi hotel last week. The hotel will be open for business next month.

Superintendent Hutton, of the experimental farm, reports a great crop of storm King oats. The heads on some samples were fourteen and a half inches long.

Ladies—If you want a new century washing machine, or a sewing machine, or a baby carriage, come to the auction sale of G. M. Dempsey's Saturday, Sept. 14, 1907.

Uncle Tom's Cabin Company, which held forth under canvas here last Thursday evening, drew a crowded house. The old favorite was well put on and enjoyed by all the youngsters present and many of the older ones.

Everybody—If you want anything in the line of stoves, furniture, carpets, farm or garden tools, or new milk cow, attend the auction sale, at G. M. Dempsey's Saturday, Sept. 14, 1907.

The Fairview football team tried conclusions with the team composed of the men working on the new school building on Monday with disastrous results. The school boys put it over them in a keenly contested game by a score of two to one.

The new crossing on Hamilton avenue and Alberta street is a peach. It is just about six inches lower than the road on either side, and after a shower will be a source of joy to the pedestrians who pass that way. Later—We learn that it is the intention of the council to put a roof on this crossing and make it a subway.

The Lacombe Poultry Fattening Station will receive young chickens on Sept. 5th and also on Sept. 9th. Chickens must be starved 24 hours before bringing them in. A good price is assured the patrons for the finished product.

S. J. PAUL, Manager.

One hundred and two men were killed on Thursday last, by the collapse of the new steel bridge under construction over the St. Lawrence in Quebec. The bridge was a seven million dollar structure and had been under construction for the past seven years. The government is investigating the catastrophe.

"The Store of Quality." D. J. McElroy's new Gent's furnishing store in the Russell block, was opened to the public on Saturday evening last. It is the intention of the manager to carry a high class line of goods (furnishings, boots and shoes, etc.). The interior furnishings for the store have not arrived yet. But are expected in a

short time, and when put in place this store will present a unified appearance. Mr. G. R. Gilroy is managing the establishment and will be pleased to meet the citizens of the town.

Stettler's town levy this year is nine mills on the dollar.

There have been some slight frosts in this district lately, but no serious damage is reported.

We stop the press to announce that the cordway walks around the Victoria are sadly out of repair.

The lawn social on the Trimble lawn on Tuesday night last was well attended, and although the evening was a little chilly for tea cream, a most enjoyable time was spent, and the Ladies Aid of the Methodist church added a neat sum to their exchequer.

The Globe staff acknowledge with thanks the donation of a large chunk of angel cake by Garfield Christie and other young men of the town. As none of the staff were desirous of becoming angels just now, it was not sampled, but laid away in the safe for future reference.

J. H. Rose was seriously injured by being thrown from his wagon last week. A sack of oats on which he was sitting became displaced and he was thrown backwards to the ground. He sustained a fracture of a couple of ribs, and was badly shaken up besides. He is progressing favorably under the circumstances.

D. G. Campbell, late of Alia, who has been spending a couple of months touring the coast, returned to Lacombe last week. He is greatly struck with the prospects of the Lacombe district this season, having seen no farming country to compare with it in his travels. He reports the coast pretty dead, especially Victoria. Vancouver and New Westminster, he says, are going ahead fast. Mr. Campbell has also visited his home in Ontario since leaving Lacombe.

He reports crops very poor throughout the coast and is more firmly convinced than ever that Alberta is the country for him. A new arrival was observed by The Globe man the other day standing on the sidewalk near Morris—Johnnie's hardware store weeping as if his heart would break. We asked him if anyone near and dear to him had just died. As soon as he composed himself sufficiently 'to speak he replied amid sobs that it was only a case of homesickness. He was a farmer from Missouri, and near his place was a large hog wallow, which the hogs for miles around were wont to frequent. He said that the sight of Barnett Avenue brought so forcibly to his mind this spot back home, that he could not help weeping. All that was needed was a few hogs to make a picture true to life.

What's the Use?

What is the sense of members of the council telling the people that the Barnett Avenue sewer will be a benefit to the whole town? It is proposed to put the drain down 84 feet, and that is the depth the council has estimated the cost of. The members of the council have at their disposal the report of Engineer Thorold, one of the most competent municipal engineers in Canada, and he says that the drain to be of any good to the town at large must be at least thirteen feet underground on Barnett Avenue. The council should take the people into their confidence and stop these little underhand tricks.

Give the Citizens a Chance.

If the council wants to do the right thing by the people of Lacombe they should not take advantage of the frontage tax law in putting down the drain on Barnett Avenue. As fifty per cent of the money to be expended on the drain will be levied on the town at large, the ratepayers surely should be allowed to express an opinion on the matter. Although the council is not compelled to take a vote on the question, it would only be fair for them to give the people a chance to say whether the expense should be incurred or not.

If the people are not given a chance to vote on this expenditure, and the council is determined to go ahead with the work on ignorance will doubtless be served, and the work stopped.

Council Meeting.

A special meeting of the Council was held on Aug. 29th.

Members present, Mayor D. O. Gourlay, Councillors J. D. Skinner, F. Vickerson, H. A. Murphy, Jas. P. Kent, and W. J. Simpson. Meeting called to order by the Mayor, who stated the object of the meeting, to pass a bylaw fixing the rate of taxation for the year 1907.

Several communications were read.

The committee appointed to strike rate of taxation reported as follows:

After having the assessment roll carefully checked by the Auditor we find the assessment to be as follows:

Total assessment for school purposes, \$922,885.00; total assessment for town purposes, \$708,276, the total appropriations as passed by the Council are \$11,244.62, and the amount asked for by the school board is \$5723.00.

We would recommend that the rate be as follows:

School 64 mills; debentures, 24 mills; town 13 mills; making a total of 22 mills.

A discount of 5 per cent. will be allowed off taxes paid before Oct. 1st.

The report was adopted, Coun. Day dissenting.

J. D. Skinner and H. A. Murphy were appointed delegates to the Convention of Municipalities at Medicine Hat.

Foot Ball Match.

On Labor Day a football match was played at Lacombe between Bulltown and the new school house mechanics.

The kick off, timed for 4 o'clock was fairly prompt, and the school boys immediately started pressing, eventually scoring by some very tricky play of the centre forward, J. Henry, who beat both backs and then the goal keeper.

Another goal soon followed, after some intricate play Austin putting the finishing touch by heading it through.

Just about this time Cliff was injured and had to retire in goal and went out in his place. Half-time here was called and was very welcome, the day being hot and the pace terrific.

In the second half Bulltown had matters pretty much their own way although J. Henry had pretty hard luck in not scoring with a beautiful shot which the Bulltown goal keeper cleared in masterly style.

Bulltown scored in this half after some pretty combined play. J. Gourlay made an efficient referee.

BORN.

BOYD—On Saturday, August 31, at Lacombe, to Mr. and Mrs. Albert Boyd, a son.

GOLDRING—At Lacombe, on Aug. 30, to Mr. and Mrs. R. W. Goldring, a son.

Postmasters Salaries Increased.

Ottawa, Sept. 2.—The long promised revision of salaries and allowances to rural postmasters was gone into effect. The minimum salary is raised to \$30 per year. The allowance of 40 per cent on the first \$500 has been increased to 30 per cent on the first \$1,000, while 30 per cent will be allowed on all business between \$1,000 and \$10,000, instead of 20 per cent as at present. Over \$20,000 the allowance is increased from 15 to 30 per cent.

In less than four months the citizens will have a chance to elect a real reform council. It will be badly needed by that time.

VALLEY CITY TOPICS

Valley City News.

Haying is now nearly finished. The wheat and rye harvest is now on. The frost on Friday night did slight damage to the oats, but the barley will be a good crop. A week of fine weather now will see the harvest in full swing.

Mr. Dan Gourlay paid a visit to our town on Saturday.

Mr. Magoo, the homebased inspector, was also here during the week and was round inspecting homebased in the neighborhood.

Blueberries, raspberries and strawberries have been unusually plentiful this summer and there have been numerous excursions to the Chain Lakes where the berries are to be had in unlimited numbers.

There will be a grand dance at Hare's Hall on Friday night, Sept. 6th. There will be good music provided and it is hoped there will be a good turnout.

Labor Day was a quiet day here and most of those who could get away from business went over to the celebration at Alia.

The government is putting in two good bridges near the town, one a mile north-east and the other one a mile west on the Lacombe road.

They are very busy at the chicken fattening station. The new building is crowded to its utmost capacity and the creamery barn has had to be used as well.

Mr. George Wood paid a visit to the town on Sunday to look up his old friends.

Mr. Sutton, of Lamerton, who had charge of the mission here all last year, was here on Sunday and held service in the church.

Mr. Johnson, of the Royal hotel, Lacombe, paid a visit to our town last Thursday.

The \$1 bounty now given by the government on coyotes is a good thing, but the opinion of most of the farmers is that a bounty of two dollars would have been better as these pests do an enormous amount of damage to the poultry during the year, and a high bounty would cause their more speedy destruction.

The Quebec Catastrophe.

The awful loss of life in the collapse of the Quebec bridge adds another to the series of catastrophes which have shocked humanity in recent years. Eighty-four men are believed to have perished in the waters of the St. Lawrence, only eight escaping of the ninety-two working on the section that went down. The sympathy of the Canadian people will go out to the relatives and dependants of the unfortunate men, and the sympathy will no doubt be expressed in tangible assistance where such is required: In disasters of this character this is all humanity can do; and this humanity is bound to do.

Mail Order House vs. Home Store.

The person who buys goods of a mail-order concern, in a distant city receives the goods by mail after having paid for them in advance; and to matter what the quality may be his purchase is absolute, and he has no redress if the quality is not up to the standard. If it is a farm tool with poor steel there is nothing for him to do about it unless the mail-order house chooses to "make good." In a similar case in his own community where he purchases an article of the local dealer, if he is not satisfied, or if the quality is not good he can easily go to the store where he made his purchase and take the matter up with the dealer. Usually he is able to get entire satisfaction. There is a way of fighting the competitive business of a mail order house outside of legislation, and that is the practice of never allowing a person to come into the store to get the same thing twice without success. A good merchant will carry the goods which people want, and if he does not have them will get them so that a person will not be obliged to send away. The cases are frequent in which a prospective purchaser cannot get what he wants. If a person wants to get a cheap article and pay a cheap price for it out of necessity he ought to be able to do it, and the merchant should keep on hand goods of different prices if possible.

NOTICE

We have on hand one second hand Buffalo Pitts Traction Engine, taken in trade on a new engine. This engine has steel gearing and is in perfect working condition. Its traction power cannot be excelled, and for a thresherman who wants a good thing at a way down price he cannot beat this offer.

Write Us for a Price

We have a number of the Famous Adams Wagons still on hand and can guarantee goods at a right price. We are headquarters for Cockshutt Plows and Disc Harrows, Reves' Traction Engines, National Cream Separators, Model Incubators, and anything and everything that is A.1.

A. C. JOHNSTON

Valley City

In a Class by Itself

It is quite true FERROL is an emulsion of Cod Liver Oil and a particularly good one at that. But it contains also and Phosphorus with the Oil, and these are just what are needed to make the emulsion perfect and they are just what all other emulsions lack.

FERROL

It is unique because it contains liver and Phosphorus with Cod Liver Oil. It is pleasant to take and easy to digest. It holds the record for increasing the weight of fat from the use of 25 bottles. The formula is freely exposed and its benefits are verified by eminent analysts in Canada, the United States and Great Britain. It is endorsed by prominent physicians of all schools. It is used in all the leading Hospitals, Sanatoriums and other Public Institutions. The London (Eng.) Lancet, after careful analysis in its own laboratory, fully endorses it. We are prepared to substantiate all the above statements. FERROL is the embodiment of health, strength and vitality, and "You know what you take."

Nervous Prostration

IT IS WORRY THAT KILLS, NOT WORK. Work without worry usually tends to prolong life. On the other hand, worry, with or without work, is fatal because it uses up what the Doctors call the "Leucine," a phosphorized fat which is the chief constituent of the brain and nervous system—a waste which, if not stayed in time, means complete nervous wreck. The evident moral is: "Don't worry—advise easy to give, and in these days of stress and strain practically impossible to take. The alternative is: find some way of replacing the wasted Leucine—the phosphorized fat. This absolutely essential element will be found in its most perfect, palatable and assimilable form in:

FERROL

an emulsion of Cod Liver Oil and Phosphorus (phosphorized fat) together with iron, the recognized blood builder—making FERROL the ideal nutrient it claimed to be. For the prevention or treatment of nervous prostration FERROL is absolutely essential—it is safe, pure and speedy. The formula of FERROL is freely exposed to all consequences.

"You Know what you take"

Two-year-old Percheron Stallion for sale, apply
A. A. HENRY, Lacombe.

TO MR. PALMER.

To the Editor of The Globe:

In the correspondence which has appeared for some time past in The Globe, the origin of which could be traced to the fact that the Lacombe Agricultural Society omitted the last hog from their prize list, the writers would have been all right in their opinion had they kept to the question "Did the Society do right in turning down the Duroc Jersey and Poland China hogs?"

To our mind, however, there appeared more of a disposition to scandalize the agricultural society, our government officials, and more lately, everyone who took different views on the subject or dared to challenge the statements or express an opinion. We took a hand in hoping to put a better face on things, and have been hit by friend Palmer. As the editor of The Globe has encouraged us back on the firing line, we have to wade in or show the white feather.

Mr. Palmer says, "The Colonel would be a useful member of a society if he would only stand some where. Unfortunately he sits up on the fence and seems to have a change of heart every new moon." We cannot understand why he should have said this. It is true we have stood together on most of the questions affecting the farmers' interests. For instance, Government ownership and operation of railways, extending the Intercolonial system of low rates which would mean from four to eight cents a bushel more for our grain; government loans to farmers at a low rate of interest (a very good thing just now); and something in line with Oliver's land bill—more land for the original settler, and farmers organizations. We stand just the same now. There has been no change in us. But we have lost our running mate. When it came to voting at the polls in vindication of these principles, at the last hour in the afternoon, Palmer told the committee, of which he was supposed to be the chief, that "He did not know how to vote!"

Had very much the appearance of Brother Palmer being on the fence. As for the Farmers' Association of Alberta, of which we made him the head, it was not a case of the Indian being lost, but the wigwag was lost. It was a complete case of heart failure as the gentleman allowed the organization to go busted, flat, dead! For seven years we persistently fought for a grade dairy class in the prize list. There was a grade cattle class, but the Hereford and Shorthorn men swamped us with their beef types. We finally succeeded, with the help of Mr. Harcourt and his model prize list, in having this class recognized. However it came about we do not know, but this class went off the list with the Duroc Jerseys. We did our best at the following meeting to have the class put on again, and the opportunity was good for Mr. Palmer to have done some good for the farmers and the dairy interest, but he had another change of heart and gave us no support, except the intimation that the pure bred white faces were good enough milkers for him. We imagine that some of his suspicions as to our change of heart arises from the fact that as between the town and country directors of the agricultural society we are not always with the farmers, and like himself "kicking when things go wrong or when things go right." While we do not endorse the townspeople all the time, there is this about it, there would have been no townpeople without the aid of the country people; neither would there have been an agricultural society in the flourishing condition in which we find it today—thirty acres secured, the location the best in the district, and \$8000 to make improvements with. If things are not done right by the society it is the farmers' own fault. The farmers are in a majority of two to one on the present Board of Directors and could do anything they have a mind to. I have often been at properly advertised meetings and had it not been for the town directors there would not have been a quorum to transact business. The farmer will not turn out and take the interest he should, but stands back and fires at long range at the society. If the farmer would take advantage of his opportunity there is not a thing in their interests they could not secure. To make a suc-

cessful exhibition there must be liberal encouragement.

In our opinion all recognized breeds of stock should be given a chance. The prize list should not be confined to pure breeds in the horse and cattle classes, as only a few farmers can afford to breed the high priced stock. Wherever there is an animal of excellence let the public see it. There is education in it and its owner is entitled to a prize. In conclusion we assure friend Palmer that we have experienced no change of heart towards him personally, and if he gets no worse he can depend upon our support in all matters affecting our profession. We wish he could come down to our level of understanding and leave out his so-called sarcasm. It is beyond us to understand it.

J. J. GREGORY.

Mr. Crow to Mr. Palmer.

Mr. Palmer does not realize yet that he is kicking against the pricks which strengthens the old problem—No sense, no feeling. I should not have taken up this matter or interfered in any way on my own behalf, but I am always ready and willing to defend the right and condemn the wrong, when it is likely to prove a detriment to our own district, and the farmers. I am not alone in saying that you, Mr. Palmer, shamefully attacked Messrs. Craig and Hutton and it appears for no other reason than to give vent to your own personal malice. Had there been any grounds for so doing, or any sense or reason in the statements you made, one could have overlooked the matter. But no. Kicking is chronic with you. You cannot help kicking. You must kick. The general opinion as far as I can learn, is that it certainly would pay you better not to waste your time in such matters, for there is certainly nothing else wasted, and turn your time and attention to your stock, for you will only accomplish what the fellow did who stood before the looking glass with his eyes shut to see how he looked when he was asleep. Now, Mr. Palmer, you have had quite a lot to say about the last hog. I hope it is not because you have a brotherly feeling, but for the information of the farmer, (not for your information, Mr. Palmer, you know it all already) I would say that as Malcom's Western Canners, Limited, will be a large consumer of hogs at their factories, and as they want pure bred and grade Yorkshires and Berkshires, it should prove beyond a doubt that the bacon hog is coming to the front in Canada. I would further suggest that those interested in the hog business write to Mr. H. H. Malcom, Medicine Hat, Alta., and get Government bulletins No. 10 and 11, which will give excellent instruction on the class of hogs desirable for our markets, and as buyers have already commenced to grade hogs, this information will be of great importance.

W. W. CROW.

Synopsis of Canadian North-West.

HOMESTEAD REGULATIONS

ANY even numbered section of Dominion Lands in Manitoba, Saskatchewan and Alberta, excepting 8 and 20, not reserved, may be homesteaded by any person who is the sole head of a family, any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situated. The homesteader is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon, and cultivation of the land in each year for three years.
(2) If the father (or mother, if the father is deceased) of the homesteader resides upon a farm in the vicinity of the land entered for the requirements as to residence may be satisfied by such person residing with the father or mother.
(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements as to residence may be satisfied by residence upon the said land.

Six months' notice in writing should be given to the Commissioner of Dominion Lands at Ottawa of intention to apply for patent.
W. W. CROW,
Deputy of the Minister of the Interior.

NEWS OF ALIX

Mr. P. Thompson has bought or 's George Cook's interest in the firm of Cook & McDonald. A success to "Pat."

A keen frost was experienced on Saturday morning. Much garden stuff has been frosted, and some kinds of grain touched.

Mr. Clark Barritt has bought from Mrs. M. A. Bremer her property on Niblock St. In addition to running the fruit store formerly run by Mr. Harry Seelye he intends re-opening the feed stable.

Mr. and Mrs. Hecker are being congratulated on the arrival of a little daughter.

Mr. Borroughs, who intends retiring from farming, had a sale on Saturday. Mr. Magguard acted as auctioneer, and fair prices were realized.

Mr. D. G. Campbell returned to Alix on Saturday. He has been badly missed and all will welcome his return.

Grey Brown, who has been to the hospital for treatment, returned on Saturday much improved.

Mrs. Magguard is visiting in Alix. She is a guest at the Grand Hotel.

Mr. Wallace, who with his wife came here a few days ago, has entered upon his duties as section boss on the C. P. R.

Labor Day was introduced with the sound of firearms.

Mr. A. C. Johnston, who has had a business interest in our midst for over a month, does not hesitate in stating that he believes there is a very bright future for the village of Alix. Although the immediate outskirts of country may not attract the prospective settler, he believes that there are large tracts of banner prairie whose productive ability should and will centre at this point. We believe Mr. Johnston to be thoroughly alive to business and feel satisfied that he would not consider an interest in our snug little spot were he not justified in holding it.

Meeting of Society of Equity at Alix.

The important work of the Canadian Society of Equity is being appreciated by the farmer, in whose cause it was instituted. When President Dean, of the Alix branch, took the chair on Saturday night, Todd's hall was filled with a large concourse of the farmers and their friends. As the arrival of Secretary Wakeman, who had the minute book, was unavoidably delayed, the interval was pleasantly filled in by an impromptu programme of instrumental music, piano and violin, and vocal solos and duets of a patriotic nature, among which might be especially mentioned, "Break the News to Mother," and the Empire Day songs of the two most important colonies of the Empire, viz., the Australian, "When the Empire Calls," by H. McDonald, M. L. A., and our own national favorite, "The Colonials and the Flag," written by Mrs. Keane, the proceeds of which were devoted to erecting memorials over the Canadian boys who fell in the late war. These inspiring selections received well deserved applause; the patriotic numbers fulfilling one of the chief aims of the Society, that of amalgamating the various nationalities in the "Last Great West," into one national body having a common aim.

At the conclusion of the programme, the young people retired, and the members of the Society held a business meeting, when the questions before them were thoroughly discussed, among them being the support of the paper, the question

of securing co-operation in markets for harvest produce, the doing away with the profits of middlemen, and other problems vitally interesting to the producing agent, the farmer. As the young people, (of whom many are at present following various occupations in town while "holding down" their homesteads) had been promised a short hop at the previous meeting, the business session was adjourned somewhat earlier than usual, and the youthful element had a merry time of it tripping the light fantastic while their elders enjoyed a neighborly chat or lamented the passing of the good old times, in friendly knots around the room, another object of the society, that of uniting the various sections in social intercourse, being thus realized.

This brief, but merry social evening, was all the more enjoyable, in view of the fact that the harvest and its problems will take up the entire time of the meetings for some time to come.

THE ASSESSMENT.

The tax notices for this year are out, and the general public is more than ever convinced that the Reform League Council is a good thing—to have nothing to do with. Large property holders who worked so hard to put this council in power have lost their enthusiasm since the rate was struck. They think the price they have to pay for the luxury is too high. The rate of last year's council was only 15 mills on the dollar, and this was thought to be too high. This year, under the rule of Skinner's Reform League Council, the rate is 22 mills on the dollar, or \$22.00 per thousand.

The assessment, according to the notices sent out, is divided as follows: Municipal 13 mills; School 6 mills; Debentures 23 mills. The majority of the citizens are of the opinion that the debenture rate of 23 mills is for school debentures. This impression is a wrong one, although it was the evident intention of the council to leave this impression. The 23 mills for debentures is for town purposes only. This means that the council is raising 154 mills for town purposes and 64 for the schools.

There would be no serious objection to the council raising this amount of money if the town was getting any benefit from it. At the rate of taxation this year the council is raising over \$11,000.

Skinner's estimates which were considered pretty high only called for \$9,000 for the year. What is the council proposing to do with the additional \$2,000? With the exception of a piece of sidewalk on the Bailey addition and a few repairs to walks in other parts of the town, and the payment of fixed charges, the ratepayers have nothing to show for the expenditure of even the nine thousand dollars. True, a little work has been done on some of the streets, with the result that Hamilton Avenue and the west end of Barnett Avenue have been rendered practically impassable, and good roads to be shunned by anyone hauling a load.

If this year's council set out with the deliberate intention of killing the town they could not have taken a better way than they have done. There is hardly a property owner in town who would not willingly get rid of his property at the present time, and with a rate of \$22 per thousand, taxation staring them in the face the investor is not likely to fall over himself in getting in on Lacombe real estate.

And it is a matter of considerable comment that house and vacant property to the amount of several thousand dollars has not been assessed at all this year. Why has this property been left off the list? Surely when every thousand dollars assessment is worth \$22 to the town the assessor should not have been so careless.

PUBLICITY.

Publicity was a very strong plank in the platform of the Skinner Reform League Council, which it will be remembered by many citizens, was elected last December. How has the council carried out this pledge? Take up one of the town papers and read the report sent in to us for publication. How much information do you absorb from it? The report will contain an announcement that such and such a committee sent in its report. The report of the committee might be of interest to the public, in fact the only interesting thing in the council report, but the council evidently wishes to keep the report dark and a copy is not furnished the publisher. Since the council insisted on furnishing the reports of their meetings over the signature of the clerk, the editor of the Globe has not attended one council meeting, and if we required any information on town affairs we have had to go to the clerk and ask permission to go over all the business transacted. The people are not interested in the reports furnished by the council. If the council does not wish the people to know what is going on the reports should be shut off entirely, and the bluff that the public is being kept informed discontinued.

Wolf Bounty Regulations.

The following extract from regulations for the issue and payment of bounties for the destruction of wolves in the Province of Alberta, north of Township 20 and south of the 55th Parallel of Latitude, has been framed by order in council:

1. For the purpose of these regulations the term, "Prairie wolf" shall mean the coyote or brush wolf.

"Timber wolf" shall mean the large wolf known as the gray wolf, and "wolf pup" shall mean the immature young of the prairie or timber wolf, up to the first of August in any year.

2. The bounty upon prairie wolves shall be one dollar per head.

3. The bounty upon timber wolves shall be five dollars per head.

4. The bounty upon wolf pups shall be one dollar per head.

5. For the purpose of these rules and regulations the stock inspectors appointed under the provisions of "The Stock Inspection Ordinance" shall be wolf bounty inspectors.

6. The pelt, including the head of each wolf upon which bounty is claimed must be produced intact to the inspector by the person claiming the bounty. Every person applying for bounty shall furnish the inspector with an affidavit to effect that the animal upon which bounty is claimed has

been killed inside the Province north of township 20 and south of the 55th parallel of latitude.

7. Upon the production to him of the pelt of any wolf the inspector shall split both ears to base.

8. No bounty shall be paid unless these regulations on any wolf killed prior to the first day of July, 1907.

GEORGE HARCOURT,
Deputy Minister.

MORTGAGE SALE

Public notice is hereby given that pursuant to an order bearing date the 22nd day of August, A. D. 1907, by the Honourable Mr. Justice Stuart, made in a certain action pending between Edward M. B. Farley as Plaintiff and William Spurrell and others as Defendants, the South-east quarter of Section No. twenty (20), in Township No. thirty-nine (39), and Range No. twenty-seven (27), West of the Fourth (4th) Meridian, in the Province of Alberta, containing by admeasurement one hundred and sixty (160) acres, more or less, will be sold by
